TWO RUN DOWN AND KILLED BY AUTOS SATURDAY

Two men were run down and killed in this city by automobiles Saturday evening within a few hours. John Porter, who has lived for the past ten years in and around Richmond and San Pablo, was run down by a truck of the Owl Motor Truck company of Oakland at 7 o'clock Saturday evening and died twenty minutest afterward. The accident happened in front of the Stag saloon on San Pablo avenue.

According to J. A. Mullins, who was driving the truck, Porter was walking along San Pablo well outside the line of travel of vehicles when suddenly he stepped into the road directly in front of the Owl truck. Before it could be stopped the man was run down. He died before medical aid could be summoned.

Porter was an aged man and the father of seventeen children, ten of whom all grown survive him. His wife died several years ago. Arrangements for the funeral are being made this afternoon.

Edward Moore was run down and killed by a jitney at 12th street and Macdonald avenue at 11:45 o'clock Saturday evening which was driven by Mrs. L. L. Smith. An alarm of fire was sounded and Moore rushed out into the street to ascertain where the fire was, when the jitney came along and run him down. His skull was crushed and his neck broken. He died almost instantly.

Moore was 58 years of age and has been living in this city for the past six years. He was married but divorced from his wife. They had one child who is with its grandparents in Nevada.

It is said by those who witnessed the accident that Mrs. Smith, the driver of the auto was traveling at an excessive speed. She was arrested, but later released on her own recognizance by Judge Jacobs.

FIELD HEADQUARTERS OF THE AMERICAN ARMY IN FRANCE, Oct. 27.—One of the Zeppelin's brought down by the French while on its way back home after raidfing England landed near the American camp. The big airship was practically intact and all of the crew were made prisoners. It was the L-49, one of the biggest dirigibles. The German lieutenant in command explained that the pilot had lost his way and thought he was over Holland when the Zeppelin was attacked by French airplanes.

A party of American officers and tactical experts from the French and American armies went out to inspect the airship on Sunday afternoon and gave it a careful examination. There were nineteen German officers and aerial sailors in the crew of the L-49, and only one sustained a wound. This was a sailor, who had his forearm broken.

MILITARY MOBILIZATION MEANS MONEY MOBILIZATION----JOHNSON.

By United States Senator Hiram W. Johnson

In the grim reality of war there are two essential prerequisites -- men and money. Modern military mobilization requires financial mobilization as well. The Republic has entered upon the great adventure and the liberty-loving and the patriotic have but one thought, to provide every means to prosecute the war to a successful and victorious conclusion. Every American, however humble, can at least do a part by subscribing to the Liberty Loan. He can thus aid the brave who bear the brunt and offer the supreme sacrifice; and in purchasing the bonds he not only performs a patriotic duty but is provided with a permanent and profitable investment. The Liberty Loan is the United States of America, and every bond has pledged to it the faith of the Republic. No investment could be sounder, for it lasts with the Nation itself, and no investment can survive the Nation. The Liberty Loan fights the war, protects our country and preserves for us the material and the spiritual alike. The Republic calls for its dollars as it has called for its men and the response must be ready, enthusiastic and fervent.

YOUR PART

By O. H. Fernback

BEFORE the winter snows shall flee the sun,
UPON the lines from Verdun to the sea
YOUR valiant sons will face the perjured Hun.

LED by the bright-starred flag of Liberty
IN death-defiant charge their steel will ring;
BY shriek of shell undaunted, they'll advance,
EACH man an earnest of the pledge to bring
RELIEF to fettered Belgium — bleeding France —
TO bear the battle's brunt, resolved that Right
YET shall o'erthrow the arrogance of Might.

BUT lest their life-blood vainly they should pour
ON Patria's altar, pour you there your gold!
NOW is the hour! Lend freely from your store,
DENYING self; for as you give the more,
SWEET Peace the sooner may the world enfold.

SOME FOOLISH ACADEMIC THEORIES

When an academician sets to prove a thesis he usually proves it. And then he puts his foot in it. "Pound per pound," says Dr. Dudley A. Sargent, of Harvard, "the average normal woman in good health can endure more pain, discomfort and fatigue, and can expend more muscular energy than the average normal man of similar condition. * * * Woman of necessity comes nearer the primitive type than man. She is biologically more of a savage, more of a barbarian, and she has, therefore, greater endurance. She can undergo many strains a man cannot."

And the learned doctor, having gotten this off his chest, argues from it that a woman would make as good a soldier as a man—even a better soldier than a man.

He has told us nothing new about women. We all know that she is capable of greater suffering. It was recognized in the infant ages, and groping for an explanation, holy men of old attributed it to a primal curse.

Also every intelligent person knows that "biologically," woman is more savage than man. "Biologically" savagery consists in the struggle to survive and to protect young. It has no other motive. And the female of the jungle is deadlier than the male when self-preservation or the preservation of the species, the offspring of her body, is at stake.

But only the casuist who sees no farther than a formula will say that all this justifies the admission of women into the army. To begin with a mixed army of males and females would be an utter impossibility. Frail human nature would destroy its discipline, but that is not the chief reason why women should keep away from the front. The chief reason is as obvious as life itself. She is the repository of the human race, she is the source of life, and except in self-preservation she should never become its destroyer.

GERMANS ROWING AMONGST THEMSELVES

Something is going on in Germany and only hints and small pieces of information come out about it. The head of the German navy has been forced to resign his office, because the Kaiser's navy so far is a failure in the war. It has failed to prevent ample supplies from reaching Great Britain and could not prevent the landing of American troops in France. Men on German warships have mutinied and there is unrest among soldiers. The fact is the German people are weary of the war. Since the entrance of America into the contest, fresh, with unlimited means and millions of men, hope has left the Hun, and he fights—if he fights at all—in a despairing mood and because he is obliged to do so. We read in cable dispatches that the Kaiser's men on the West front surrender joyfully to the British—glad to become prisoners because they know they will be well fed, and above all they will be out of danger. As for the people of Germany—those who are at home—they are on short rations. Instead of eating seven times a day, according to the old German custom, they are fortunate if they have two meager meals a day. German meal tickets provide for thirteen meals a week for each individual. Small wonder that all the folk who are subjects of the Kaiser are sick of war and long for peace and regular meals. The Kaiser's chancellor is on the point of resigning; he does not know what to do to make headway against his country's foes, and he is ready to quit trying. Germany is almost at the end of her rope.

Take notice, you tailors who make clothes, and you who wear them, that new styles will prevail in men's raiment from now on. Mr. Hoover, Administrator General, has so decreed it. Cuffs on trousers will not be permitted, cloth belts around sack coats and overcoats are not allowed. The lapels of coats also will be made small and pleated garments, such as the Norfolk jacket, are barred. That is all right, and will help the war. The government needs the cloth and wool is scarce. Nothing will be wasted. We are just beginning to learn what war means. Two meatless days a week, no cuffs on trousers—well, let us live plain and rejoice that we live at all. Do what Mr. Hoover asks and protest not. Anything to beat the Hun!

A new electrical device has been patented which will give a perfectly safe shave, a three-minute haircut and a scientific massage without the assistance of a second party. If the blamed thing could only tell ancient jokes and smell of stale cigarette smoke, every man could have all the comforts of a modern barber shop in his own home.

"The enemy must frankly admit this crime," said a preacher, commenting on the war and the conditions precedent to its ending and he was right; yet it is hard to conceive of such an enemy doing anything "frankly."

Germany has not won a solitary victory on land when met man for man and gun for gun since the war began, and anybody not a mental defective knows by this time she never will.

Quick Relief

Mr. Otto Schipske, a faithful employee of Koch's at corner Washington and 6th Sts., rejoices over his complete recovery. After having tried many doctors and remedies and also several Chinese herb specialists in Oakland, he found the FONG WAN HERB COMPANY to be the only place that could give him quick and permanent relief.

Oakland, Cal., April 25, 1917

"I suffered for many months from FIVE LUMPS under my chin, but was entirely cured in two weeks by the FONG WAN HERB TEA. Then I also drank their tea for my eyes and after a few weeks that trouble was also completely relieved.

A SCHOOL FOR HUSBANDS AT RICHMOND

There certainly is a big field for acting in the film "A School For Husbands" showing at the Richmond Theater today and no one could have taken better advantage of the capricious part than Fannie Ward the famous Lasky star who has the leading part.

Pretty and vivacious, the young lady has a great time leading a husband through the mazes of married life to a denouement which is both exciting and unexpected. The play is generously sprinkled with fine comedy and is put on by a strong supporting cast.

On the same program will be shown a jolly Pictograph and a side-splitting Elko comedy.

BRONZE TABLET MISSING

The bronze tablet at the south entrance to the Municipal tunnel has disappeared and the city authorities are wondering what has become of it. There is nothing left, except the bolts which fastened it to the wall. Somebody suggests that it has been taken by some German sympathizer to aid in the unholy war which that country is waging against the world.

But at any rate the tablet is gone and the historical data with it. The plate cost the taxpayers of this city a round bunch of money and the officers are anxious to find the individual who made away with it.

Cleanliness Is Next to Godliness"

SO the legend ran in the old-fashioned primers. But we wonder if old-fashioned folks really knew what perfect cleanliness meant! In the old days of the straw broom, or even the more modern brush carpet-sweeper, perfect cleanliness was impossible. Dust removed from the floor spread in clouds over the room, settling on the hangings and the furniture—only to be toilsomely removed from its new location by the "hand" method.

Red Cross Wants Names of Boys in Overseas Service

The local Red Cross is desirous of obtaining the names of all the boys from this locality and especially from draft district No. 2, comprising that portion of Contra Costa along the water front to Crockett who are now in France, or on foreign government service. The Red Cross is making up its Christmas packages for transmission to the boys across the waters and as the time is now growing short, it is necessary that the names and addresses be forwarded as soon as possible. Even if the address is not obtainable, if the boy is known to be "Somewhere in France," send along that information together with the name of the soldier or sailor boy.

Christmas is going to mean a great deal to these young men this year who are so far from home and it is the intention of the Red Cross to remember each and every one with some kind of a useful gift.

Send in your information to Mrs. J. C. Owens. Her telephone number is Richmond 57.

FATE OF THE WAR RESTS ON FARMER

Must Realize Great Part He Is to Play

BONDS SAFE INVESTMENT

Government Expects Farmer to Subscribe Freely

AMERICA CALLS FOR HELP

"The farmer in 1775 became the minute man and his shot was heard around the world. The farmer of 1917 is not only the minute man of the day but the bonds-man, feeding the peoples of the world," declared George W. Peltier, vice-president of the California National Bank of Sacramento, in a statement to the Liberty Loan Publicity Committee.

Continuing, Mr. Peltier says:

"The farmer has not yet realized the importance of his position as a citizen, and the part he must play in the great international struggle that is now going on.

"At the present time he is looked upon as the individual who must win the war. In the eyes of those not engaged in gathering the products of the soil, he looms up as the one great big factor upon which the world is now depending.

"The cry is for food, and then more food, and the farmer is the one individual that can produce it, because he has the land and the equipment and the knowledge of producing it.

World Depends Upon Farmer

"The Government at this period of the war is fully awake to the responsibility of the farmer and the dependence upon him which the world at large has begun to realize.

"The farmer, today, hardly comprehends the enormous profits he is now making, as a direct result of the war. Many of them who have been on the farm year after year, with a modicum of profit, have suddenly found themselves reaping enormous gains and excess profits, which to many of them were unbelievable.

"The profits from the products of the soil are astonishing. Everything that comes from the soil is bringing to the farmer the highest prices. Never in the history of farming has every product of the soil brought such prices as are now obtainable. There have been years when occasional products have brought enormous prices, but never when all products bring these abnormal prices and profits.

"Therefore, the farmer must face the tragedy which is now taking place, and he must be fully alive to the importance of his position and to the great part which he is expected to play.

"He must be responsive to the demand of humanity and of the Government. He must be able to see the requirements expected of him. He must not hesitate to make his answer, and that answer in the right way.

Liberty Bonds Rare Investment

"What are we looking for him to do? What shall we say to him? We expect the farmer to raise large crops; we want him to make large profits, and then we are looking for him to display and exercise his patriotism by investing a part of his profits, a part of his enormous gains, into the Second Liberty Loan of 1917, a United States Government War Bond, the best piece of property in the world. It has no equal for stability; it is liquid; it is an asset which any farmer might be proud to hold as property. He will realize that he can hypothecate it, that he can sell it, that he can trade with it, that it is worth one Hundred Cents on the Dollar nearly every day in the year, that it is almost inconceivable whereby he might make a loss through his purchase.

"He must realize that when he buys the Government Four Per Cent Bond he is not giving the Government any thing, but that he is receiving a dollar back for every dollar that he invests, because it is the rarest of all investments.

"When he does these things which he is expected to do, and when he realizes the facts in connection with the production in which he is dominant, and when he realizes the further fact of the strength of his investment, I feel sure in saying that the farmer of America, and particularly of California, will not be found wanting."

ELKS WIN THE BALL FROM LOS BANOS CRACK TEAM

The ball game between the Los Banos team and our Elks yesterday resulted in a score of five to four in favor of the Elks. The game was a good one, according to the promises made the fans by Manager Deitrich and a fair representation of people was present to see the home team win back some of the laurals lost to the Dairy Maids in other days.

Features of the game were the home run by Bohne of the Maids the double play of Sears to Scanlon and the two-base hits by Autry and Menges of the locals. This is the way the score-book looks after it had been marked up by the official score-keeper:
